President's Message

Greetings!!

So, did you get signed up for our 45th Anniversary celebration? It is going to be a fantastic event. Great food, friendship, door prizes galore, a little recognition, followed by some home grown musicians!! I can't wait to see friends who haven't been in our area for quite some time. The organizers of this event have done such an amazing job!

We have had some great hikes and other activities offered this fall with more to come. I was so excited on the annual AT Family Day hike to actually have a family with some youngsters join us this year. Not that I wasn't delighted to have a few couples and my daughter and her cousin along on such a nice day also. I hope you are able to get out in the woods as we move toward the holidays. The leaves are reaching their peak in the mountains but we still have some time closer to home for those fall colors. Don't forget to wear bright colors or blaze orange if you are hiking in the state and national forests as hunting season is upon us.

Our maintenance folks have really been busy this past season. They have accomplished a lot in the way of moving water off the trail. Trust me there was a lot of rain this year! I have never seen such enormous weeds on the section I co-maintain before, felt and looked like a jungle until we got things back in shape. You still have a chance to help on the AT as there should be one more maintenance weekend in November weather permitting then the crews tend to stay a bit closer to home until March. Be sure to watch for potential opportunities to assist at the James River National Wildlife Refuge or possibly at the local James River City Park; organizations that often seek our assistance during the winter.

An item of concern that may threaten our section of the AT is the proposed Atlantic Coast Pipeline. You may have heard about it in the news back in August when it was endorsed by the governor and others touting its economic benefit. The pipeline is intended to move natural gas from West Virginia through Virginia and down to North Carolina. The project is still in the preliminary planning stages but as more information becomes available we will keep you posted.

President's Message (cont'd)

The November General Club meeting is also the annual business meeting when we vote on nominees for the next ODATC Board. Unfortunately, we are still seeking nominations for several major board positions. The list of candidates and additional information is included elsewhere in the newsletter. Please consider giving of you time to help keep our awesome club moving forward by volunteering to serve on the Board!!

As always happens with this particular edition of the Walker it is impossible to believe that no sooner do I wish everyone a great fall, then it is time to wish you Happy Holidays!! Hope to see you at the 45th!!

See you on the trail! And oh yes, Happy Holidays! ☺

Theresa Duffey

Your club is looking for a few good members to join the dynamic ODATC Board!!

Do you have an interest in giving back to your club? Perhaps you have an interest in learning more about the relationship of the club and how it fits into the overall cooperative management partnership for the Appalachian Trail. Maybe you have some great ideas that will help the club grow and become more visible in the Richmond area.

Nominations are being sought for the following ODATC Board positions:

- Vice President: Open ... no nominees
- Trail Maintenance: Open ... no nominees

Each position has different responsibilities yet contributes to the overall decisions that guide and direct our club's functions. In today's technology driven world, it is important that board members have regular access to the internet as much of the communication is through email. To learn more about the responsibilities of these positions, please feel free to contact the current board member in your position of interest. You can also review the duties of each position by going to the website. You will need to log in as a member, go to the Member only tab, then to Governing documents, and click on ODATC Standing Rules which is the guidance document for the board. Bill Weatherford (804-221-0369) will lead a 2+ hour hike in his boyhood town of Blackstone, a tobacco and railroad town. The hike will begin in the municipal parking lot at Bevell's hardware and will wind through the town, stopping downtown for lunch and then back to the hardware to view the model train exhibit. The train exhibit is 20' X 58', and some portions change from year to year. This is truly a highlight for this small town of 3,600 people. The exhibit is open from Thanksgiving to the first week in January, and last year 31,000 people went through the hardware store door during this time.

Bill will coordinate a carpool from the "Park and Ride" at the intersection of US 360 and Route 153, about 35 miles west of Richmond. We will leave this carpool at 9:25 AM. Ted (218-1238) will coordinate a carpool from Home Depot 12300 Chattanooga Plaza, Chesterfield Crossing Shopping Center on the East (Richmond) side of route 288 and Hull Street Rd. As you enter the town of Blackstone the speed limit drops to 25 mph, slow down, the police don't have much to do in Blackstone. Just before the first stop light there is a MacDonal'd's on your right (this is the rest room stop), if you miss this stop go one block and you will see a Hardee's also on the right (your second chance for a rest room stop). We will turn left at the Hardee's, onto Tavern Street, and the municipal parking lot is a 1/2 block on your right, in front of the Bevell's Hardware. We will meet here at 10:00 AM for a short briefing and begin our hike.
