Newsletter of the Old Dominion Appalachian Trail Club

Volume 22, Issue 5

September/October 2014

## *President's Message*

Greetings!!

I hope everyone had a great summer. Fall is just around the corner and I noticed there are some great activities being offered by the club. Numerous choices close to Richmond, out in the mountains or at the beach – something for everyone!! I'll put a plug in for my AT Family Day hike on September 27th. It would be great to have some parents/grandparents bring their youngsters out to enjoy a nice walk in the mountains.

The other big event well underway is our 45th Anniversary celebration. I am really looking forward to this event. The menu looks awesome. Sounds like we should have good attendance and some great entertainment. More information is included in the newsletter so be sure to mark your calendar for November 8 and get that registration form in soon!

Over the weekend of August 8-10 I had the opportunity to represent the club at the ATC Volunteer Leadership Meeting. It was held at the National Conservation Training Center in Shepherdstown WV – a really nice facility. There were representatives from all 31 AT maintaining clubs, creating a very interesting opportunity to discuss trail issues covering the entire length of the trail. It is always interesting to be welcomed and thanked for our volunteer service by Supt. Wendy Janssen of the Appalachian Trail Park Office, ATC Executive Director Ron Tipton, and other representatives of the cooperative partnership. However I must say some of the issues and concerns that were raised by those of us in the audience brought home how similar many clubs really are. Most all of the clubs are concerned about bringing in younger and more diverse members. An eye opener was Mount Rogers AT Club whose youngest maintainers are in their 70s! They can't seem to find the magic pitch to bring in younger (40 and 50 year old) members. While I think our average age for maintainers is a bit younger than 70 something, we have also been working hard to get more visibility in the Richmond area in hopes of attracting new members and getting the word out about the work we do to protect the iconic Appalachian Trail.

There were other interesting sessions that I won't elaborate on in my president message. However, I must share this upcoming event that may lead to "be careful what you wish for".

## ***President's Message (cont'd)***

Robert Redford and Nick Nolte will be in a movie to be released in the spring, based on the book "A Walk in the Woods". The expectation is the movie will generate a lot of new trail users who may end up the same as the individuals in the book. The Georgia and Nantahala Clubs are already being primed with strategies to deal with the onslaught. I'm thinking the potential to have one heck of a sale on brand new hiking gear will be a great money maker for these clubs! On a serious note, while this publicity will likely be a good thing for the ATC and bringing awareness of the trail, there is also the balance of ensuring the 'AT experience' is preserved.

I have gone on long enough! Hope to see you out on the trail either helping with the maintenance or on a hike, maybe even both!! Bring on that beautiful fall weather!!!

Theresa Duffey

### **Your club is looking for a few good members to join the dynamic ODATC Board!!**

Do you have an interest in giving back to your club? Perhaps you have an interest in learning more about the relationship of the club and how it fits into the overall cooperative management partnership for the Appalachian Trail. Maybe you have some great ideas that will help the club grow and become more visible in the Richmond area.

Nominations are being sought for the following ODATC Board positions: Vice President, Trail Maintenance, Outreach, Webmaster, and Newsletter. Each of these positions plays an integral role in the oversight of your trail club.

Each position has different responsibilities yet contributes to the overall decisions that guide and direct our club's functions. In today's technology driven world, it is important that board members have regular access to the internet as much of the communication is through email. To learn more about the responsibilities of these positions, please feel free to contact the current board member in your position of interest. You can also review the duties of each position by going to the website. You will need to log in as a member, go to the Member only tab, then to Governing documents, and click on ODATC Standing Rules which is the guidance document for the board. If you are interested in any of these positions, please contact Theresa Duffey ([odatc.president@gmail.com](mailto:odatc.president@gmail.com)) or Larry Kidd ([odatc.webmaster@gmail.com](mailto:odatc.webmaster@gmail.com)).

This hike rates a B/2 on ODATC's scale due to length and difficulty - not quite an insanity hike but you should be in good shape to do this one never the less. Larry Kidd ([lkiddjr@comcast.net](mailto:lkiddjr@comcast.net) or 784-3617). While owned by the city since 1978, Lewis G. Larus Park was not formally developed until 2006. Larus park is 106 acres of wooded solitude surrounded by urban hustle and bustle with about 5 miles of trails. It's bounded by Huguenot Road, Chippenham Parkway and a regional shopping center yet manages to remain virtually unknown to most Richmonders. It really is the Richmond city park system's hidden gem. We will meet in the back of the parking lot away from the Martin's Food Store entrance in the Stony Point Shopping Center, on Huguenot Road near its intersection with Stony Point Road and hike about 4.5 miles in Larus Park with an optional lunch in one of the nearby Bon Air restaurants. Robert Krause

Nena Combs-Kirkland

ODATC has seen many changes over the last 45 years. These have occurred due to the dedication and efforts of members who have championed these changes. Although so many have made a significant impact on the success of ODATC over the years, we will be able to highlight only a few of those significant contributions in this article.

In the mid 1980's, Wintergreen announced plans to develop the entire side of Humpback Mountain. Jack Albright knew that the AT needed to be relocated away from the day use trail up Humpback Rocks and that the only feasible route was through the proposed development. Jack loudly and emphatically approached the AT professionals saying "Something has to be done!" The ATC and NPS quickly put together a proposal to purchase a right of way from Wintergreen. At this point there had been no work done on actually laying out a relocation except that Jack, Brian Wakeman, Pete Tansill, and maybe a few others had a rough plan. But to the surprise of the AT community when the Park Service approached Wintergreen to obtain the right of way, the response was, 'if you are going to take that wide a right of way then you might as well take the whole side of the mountain.' So the Park Service said thank you very much and bought the entire side of the mountain. This is why the footpath there is not just a narrow right of way. Lynne Overman, one of two of the first women ODATC members, was president during the time of the acquisition and was very instrumental in insuring the success of this project. In the mid-90's, Jim Schroering, Charlie

Banks, Doug Nelson, Howard Davis, Kathy and Dave Gillespie laid out and flagged the relocation, and along with other members worked to make the relocation a reality.

Other trail rerouting efforts followed over the next 20 years. To minimize foot traffic over Humpback Rocks and provide separation from day hiker and thru-hiker impact, a relocation effort was underway from 1997 through 2000. Under the direction of Fran Leckie, the Trail Maintenance Chair for 16 years, and the hard work of many club members, including Karen Koontz, Dave Wilcox, Janice Olson-Zavik, Jim Schroering, Mike Shelor, and the Konnorock crews, the AT was rerouted around the back of Humpback Mountain, joining up with the Howardsville Turnpike at the Humpback Rocks Parking Area. This route gave the thru-hikers some sense of seclusion in the woods at a highly populated visiting area, while giving the day hikers a short, yet challenging hiking experience in the woods.

Shortly following the completion of the Humpback Rocks relocation, another relocation effort was planned and executed. This relocation continued the trail from the Howardsville Turnpike intersection to Dobie Mountain heading north. Redirecting the AT footpath eliminated the hill climb heading north from the Humpback Rocks parking area. It was about a mile of flat trail overseeing the valley to the east and a beautiful overlook at Glass Hollow. The abandoned part of the trail was then made into a blue blaze trail for day hikers heading north. It was decided to dedicate this blue blaze trail to Jack Albright. Bob Kyle tirelessly prepared all the applications and grants required to fund this project. Our devoted trail maintenance crew, such as Greg Hambacker, Fran Leckie, Dave Wilcox and many others, put in many hours of work to complete the trail. The Jack Albright Trail was worked on from 2002 to 2003 and dedicated in 2005. Jim Hunt, the president at the time, was a driving force in the dedication celebration held at the trailhead and the Humpback Rocks Visitor Center.

The late 80's brought a renewed interest by ATC and Mike Dawson, Central and SW Virginia Representative, to locate a shelter somewhere on the Old Dominion section of the AT. Given the freedom to design our shelter, Jack Williams took on the daunting task of the designing and planning. However, funding was still an issue. Sadly, the death of a trail lover unknown to us became the impetus and eventual source of funds for the shelter. Mike Dawson informed us that the family of Paul C. Wolfe, a gentleman who had enjoyed hiking the AT in the southern Appalachians, wanted to donate money for the construction of a shelter as a memorial. Their desire fit our needs perfectly. With plans being complete, and the shelter location being determined, 1991 was deemed the year of the shelter construction. During the summer of 1991, club members and friends coordinated skills and talents to build one the most impressive shelters on the AT. Since lumber was at a premium, the shelter came first and then the privy. Did you ever wonder why the privy has only half of a door? We ran out of lumber!! The shelter was dedicated in November 1991. The Wolfe Family travelled up from Florida to join the many trail people who had fostered and funded the building of the "Paul C. Wolfe Memorial Shelter". Mrs. Wolfe and her family were very pleased with the club's efforts and saw the shelter as a very fitting memorial to their father and husband. After the dedication was over and while folks were talking around the shelter, we were humbled to experience Mrs. Wolfe spread her husband's ashes around the circumference of the shelter. Many hands made this effort possible. Folks who did the planning, folks who cooked awesome meals at Sherando, and all who built the shelter or privy, not the least of which was then president Roger Clifton. All involved coordinated their skills to make something all of us in the ODATC can be proud of.

These are just a few of the major accomplishments of our dedicated ODATC members. To name all the folks that put in so many hours and hard work into this club would need more space than this newsletter can allow. But everyone working on the trail, or planning meetings, or leading hikes and excursions, has made an impact on the success of ODATC and the club is stronger and better because of them.

So November 8 is coming up soon. Be sure to make your reservation for ODATC's 45<sup>th</sup> Anniversary party before October 15. Mail in your reservation using the reservation form in the Walker or reserve online at: <http://www.olddominiontrailclub.onefireplace.org/event-1719834> .
