

Learn more about how you can increase the quality of habitat for wildlife by treating invasive plant species! Through this workshop, you will learn about the common invasive species in the area, how they affect wildlife and ways to manage them. After the short presentation, we will put our skills to the test and treat various invasive species throughout the refuge.

**What to Bring:** Please wear long pants, closed toed shoes and bring a long-sleeved shirt to wear while spraying. Bring lots of water to stay hydrated!

## Invasive Species Workshop

**August 17**

9a-12p

4550 Flowerdew

Hundred Road

Hopewell, VA 23860
